

## Ovarian Cancer Prayer Facilitators: Introduction

Thousands of women around the world are diagnosed with some form of ovarian cancer, it causes more deaths each year than any other female cancer, because symptoms (bloating and stomach pain) go unnoticed Ovarian cancer is often referred to as a stealth disease and is highly recurrent (70% - 95%) especially in the late stages.

We are facilitators focused on the emotional healing of ovarian imbalances. (cancer)

Psych-K and the Body Code help to change your mindset concerning the imbalances affecting your ovaries and your overall general health. Past emotional traumas, particularly from childhood, are underlying the condition, offensive energies can effect the mind/body/spirit system, causing depression, anxiety, and make it difficult for your mind/spirit to correct imbalances.

Empathetic to your life story and biology we work with the principles of quantum physics concerning your ovarian well being.

Everyone's healing is unique, because we are working with the Quantum Field, sessions are done either by video or phone, and in person if you are planning to be in our area please call in advance to secure a time during your stay.

### Longer Version:

Thousands of women in the United States and around the world are diagnosed every year with some form of ovarian imbalance, often leading to cancer. Ovarian cancer is often referred to as a stealth disease, due to the fact that symptoms are benign or unnoticeable until things have advanced to a distressing stage. Early symptoms can be as benign as bloating and stomach pain.

Ovarian cancer causes more deaths each year than any other female reproductive cancer. It is highly recurrent, especially in stages 3 and 4, which has a 70% - 95% recurrent rate. Your emotional journey can be healing and transformational, as well as a challenge to your psyche.

We are a small group of facilitators focused on emotional healing with a focused interest on ovarian imbalances. (cancer) These healing and emotional ideas are approached in stages.

The first stage is Psych-K, coupled with the Body Code. These sessions usually run for about an hour, and the initial consultation fee is \$250.00 These sessions may help you to change your mindset concerning imbalances affecting your ovaries and your general overall health. Past emotional traumas, particularly from childhood, coupled with poor eating choices, can interfere with emotional healing. The program of these stages attempts to address the imbalances that are underlying the condition.

Beginning to move these imbalances can be a complex journey into your emotional past. The next stage is to clear offensive emotional energies out of the mind/body/spirit system. These offensive emotional energies, through no fault of your own, can cause depression and anxiety, and make it difficult for your mind/spirit field to begin the journey to correct imbalances. The next stage is to introduce you to one of our group facilitators who is empathetic to your life story and biology. These healers work with distant prayer healing. Distant healing is based on the principles of quantum physics and non-locality. You may need ongoing emotional maintenance to help you maintain a healthy immune system. In the recent past, we have seen progress using this program to help people move into a more sustainable emotional health state, concerning your ovarian well being.

As of this writing, we have limited capacity to the people we can see, due to the amount of time and energy work involved. Everyone's healing journey to the root cause is unique. There is no "one approach fits all."

Because we are working with the Quantum Field, all sessions can take place remotely, by video or by phone, and do not have to be in person.
