Bea Haskins has been writing as long as anyone can remember.
She's also been organizing her world and the world around her since she was a child.
As an adult, she writes and organizes for a living!

What Others Say about Bea Haskins

Carlton L. Purvis, III, President
Wellspring Executive Advisors
Lynchburg, VA

I worked closely with Bea Haskins for four years while serving as Board President, Board Vice President and most recently as Interim Executive Director of the National Healthy Start Association. Bea has extraordinary ability to master and remember details while understanding how they fit within broader strategic goals. She routinely translated her in-depth knowledge about the Healthy Start initiative, grantees and the Association into successful program and organizational outcomes. Bea's work ethic is exceptional. A project assigned to Bea will be done efficiently, accurately and on schedule. In addition, she anticipates and solves problems and consistently pushed the NHSA to achieve higher standards. Bea has a reputation and record of excellence, and always exceeds expectations. Given the opportunity, I would definitely work with Bea again, and I highly recommend her.

Carolyn M. Donkervoet, (Former) Executive Director
The Society for the Preservation of Federal Hill and Fell's Point
Baltimore, MD

Bea's high level of capability, innate ability, and well-honed management skills served The Preservation Society well...In summary, Bea's efforts made money for the Society, broadened our image, and enlivened relationships with our members and our neighborhoods...We commend Bea highly for her skilled and most professional management of events that are the life-blood of The Preservation Society. It is hard for me to imagine a more accomplished colleague!

Jerry Roberson, President
Texas Healthy Start Alliance
Arlington, TX

The Texas Healthy Start Alliance (TXHSA) works to address the needs of Texas' most vulnerable. I have worked with Bea Haskins for several years in a number of different capacities. Ms. Haskins consulted with TXHSA in the spring of 2009 to complete its first national competitive grant application. She was retained as an expert grant writer. Her concrete approaches toward planning, preparation and the actual submission of the grant application were simply superb. Her initial timeline functioned as the backdrop for the entire project. The preparation process involved multiple contributors with multiple ideas and perspectives. She managed to capture the essence of all of the parties involved into a clear and concise document. Finally, her sound direction for grant submission made the entire venture a success. Bea Haskins has a proven track record of seasoned writing and coordination skills, great customer service and overall reliability. Whatever she commits to, she delivers. Having her on the team makes the team instantly better. I highly recommend her to anyone seeking professional consultative services.

Joseph T. Jones, Jr., President & CEO
Center for Urban Families
Baltimore, MD

I have worked with Bea Haskins for over 17 years. She quickly grasps a situation, dives in and invests herself in the project. She then provides high-quality results. Recently, she has coordinated the collection of critical information dispensed at technical assistance and training seminars for the federally funded Responsible Fatherhood grantees and managed and disseminated that information in formats useful to our entire team. Bea's attention to detail and organizational skills are legendary, as is her ability to manage complex tasks and projects.

Kim Anton
Anton Graphics, Inc.
Clearwater, FL

Bea Haskins is a pleasure to work for. I do graphics for her clients and she always makes sure I have what I need to get the job done. She is organized, responds quickly, pays on time and is one of my favorite clients to work with.
